# How to reach Delfield

## “Live” 800-733-8821

## International customers: +1 989-773-7981

Sales and customer support are available from 8:00 a.m. to 5:00 p.m. Eastern time, Monday through Friday.

If you know your parties extension, you may dial it at any time.

By dialing the direct extension that you need, our automated phone system allows you to bypass the operator.

### DIAL

**(800) 733-8948**  
or  
**+1 989-773-7981**

### THEN

#### PRESS 1

to dial by extension  
(listed to the right)

#### PRESS 2

for department

#### PRESS 3

for sales

#### PRESS 8

for parts

- The system will prompt you if necessary
- PRESS “0” (ZERO) FOR OPERATOR ASSISTANCE.

# What is Delfield Mark 7 Component Crafted Equipment?

## Custom Fabrication With Standard Components

Delfield brings a different approach to custom fabrication. With any piece of equipment, such as utility storage, hot food table or glass rack cabinets, similar components are used. This holds true with freezers, refrigerators, prep tables, salad tables and so on. What Delfield has mastered is developing standard components that are consistent from job to job, year to year and month to month. What does this do for you? For one, the ability to purchase equipment that can be installed anywhere in the country and be assured it's the same each and every time. In addition, serviceability is increased due to common parts and labor is saved due to service technician's familiarity with the equipment. By developing common components in custom equipment Delfield is able to provide consistent pricing, no matter what time of year or how busy we happen to be.

Using the component crafted custom fabrication approach allows you to develop thousands of different equipment configurations while maintaining consistency throughout the equipment. Don't think for a minute this technique takes away from the quality of the equipment. It's quite the opposite, Delfield's ability to produce commonality in our equipment is a great value in many ways to our customer.

Delfield allows many of these components to be modified but remain similar in construction. This is the advantage of using Delfield over local custom fabrication. Our solid modeling capabilities, automated part demand flow, leading edge break presses, lasers and punches all give Delfield customers consistent precise products versus antiquated pencil marked, hand braked parts.

MARK 7 COMPONENT CRAFTED CUSTOM EQUIPMENT

CHEF'S COUNTERS

SERVING SYSTEMS

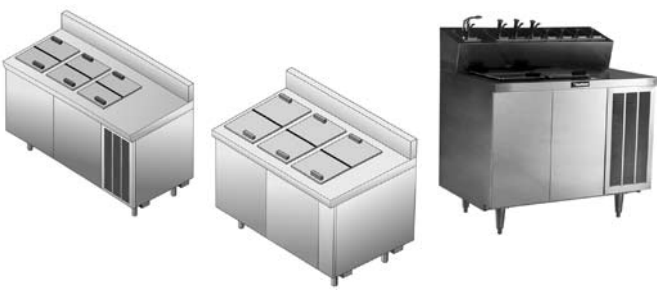

# DELFIELD MARK 7 COMPONENT CRAFTED EQUIPMENT

Start building your dream counter now! All of these units can be combined under one continuous top (up to 168" long) Each unit can be quickly splined together or field welded, for seamless appearance.

## SSRS/SARS/SMRS - SHALLOW REACH-IN REFRIGERATORS

### Product Information

- On-board high/low temp alarm
- All series standard with Delrite® ABS interior door liner
- Stainless steel interior and exterior (SS)
- Stainless steel exterior/aluminum interior (SA)
- Stainless steel front/aluminum sides and interior (SM)
- Built in door locks
- Digital thermometer
- Three wire shelves per section - SA/SS standard chrome plated shelves and SM standard with epoxy coated shelves.
- 10' cord and plug standard on all 115 volt units
- Environmentally friendly HFC-404A refrigerant
- All Specification Line models have a freight class of 110
- Two year parts and labor warranty; five year compressor warranty.

# SSRPT/SARPT/SMRPT - PASS-THRU REFRIGERATORS

## SSRPTS/SARPTS/SMRPTS - SHALLOW PASS-THRU REFRIGERATORS

### SSFPT/SAFPT/SMFPT - PASS-THRU FREEZERS

#### Product Information

- On-board high/low temp alarm
- All series standard with Delrite® ABS interior door liner
- Stainless steel interior and exterior (SS)
- Stainless steel exterior/aluminum interior (SA)
- Stainless steel front/aluminum sides and interior (SM)
- Built in door locks
- Digital thermometer
- Three wire shelves per section - SA/SS standard chrome plated shelves and SM standard with epoxy coated shelves.
- 10' cord and plug standard on all 115 volt units
- Environmentally friendly HFC-404A refrigerant
- All Specification Line models have a freight class of 110
- Two year parts and labor warranty; five year compressor warranty.

Versa Drawer™

# 18600VD SERIES FREESTANDING MULTI-TEMPERATURE REFRIGERATION

## F2900VD SERIES FREESTANDING MULTI-TEMPERATURE REFRIGERATION

### Product Information

#### All Versa Drawer Units

- 4 temperature operation—each drawer is completely independent and can operate as a refrigerator, freezer, chiller or thaw cabinet at any time
- Easy to use microprocessor control with push button function selection
- HACCP electronic record keeping, alarm notifications, and service diagnostics
- Heavy-gauge stainless steel top
- Mechanical access on compressor end of unit
- 32" heavy duty full extension drawers with (2) 12"x20"x6" pan capacity per drawer
- NSF 7 certified
- High density polyurethane foam throughout
- Dart style quick change gaskets
- 8' long electrical cord
- Environmentally friendly HFC-404A refrigerant
- One year parts, one year labor and 5 year compressor warranty

#### 18600 Series Only

- Standard on 6" casters
- Standard with stainless steel finished ends
- Standard at 34" ADA height
- Standard flat worktop

#### F2900VD Series Only

- Standard on 6" casters
- Standard with stainless steel finished ends
- Standard at 26" height
- Standard with full perimeter marine edge top

#### CE Models Only

- CE approved and listed

18682VDL

F2984VDL

**10-year Warranty on Delfield's Full Extension Drawer System Track!**

VDL - Left hand condensing unit.  
VDR - Right hand condensing unit.

**F18RC119-ES1 -119" Pizza  
Production Center**

Kitchen EXCEleration™ Systems

## Product Information

### Standard Features

- Top is constructed of heavy-duty stainless steel
- High density environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane foam throughout unit
- Snap-in dart style vinyl magnetic gaskets
- Recessed black plastic handle held in with a positive lock system
- 6.12" casters
- 8' long electrical cord
- 36" standard work height
- Composite cutting board
- Environmentally friendly HFC-404A refrigerant
- Built-in Lincoln CTI (Counter Top Impingment) oven

- Open shelf section for additional storage in base
- Overstructure with ambient topping rack and double tier landing area
- Ambient pan slides accommodate 18"x26" sheet pans

### Warranty

- One year parts and labor standard warranty
- Five year compressor warranty

**T Series - Blast Chiller/Shock Freezers**

## Product Information

- Blast chill food product from 200°F to 38°F in approximately 90 minutes
- Shock freeze food product from 200°F to 0°F in approximately 240 minutes
- On board integral printer—date, temperatures and times during all chilling cycles printed
- Automatic hot gas defrost
- Electronic control with 99 program capability and HACCP memory
- Time chill or temperature chill
- 1 core temperature probe
- Stainless steel exterior and interior
- Soft chill cycle for delicate foods
- Rehingable doors on T5 and T14D models
- T5 and T14D models have self-contained refrigeration systems
- T24C and T40 are supplied without condensing unit (condensing unit optional)
- T40 cabinet shipped “Knocked-down”, field assembly required
- Not available in 230/50/1
- Standard 1 year parts and labor, 5 year compressor warranty

# 400 - REFRIGERATED/FREEZER WORK TABLES

## ST4000 - REFRIGERATED/FREEZER WORK TABLES

402

### Product Information

- Features Delfield's exclusive Delrite ABS interior. ABS is extremely durable - it won't dent, chip or corrode and is backed by a limited lifetime warranty
- Stainless steel front, sides and top
- Environmentally friendly R404A refrigerant
- Foamed in place polyurethane cuts energy costs
- Black recessed quick grip handle
- Rugged 6" high heavy duty metal legs
- Door hinging available on either right or left, right side is standard
- 60-cycle single phase electrical system
- 6' cord and plug supplied
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

### 400 Series Only

- Two epoxy coated wire shelves, standard installed per unit

### ST4000 Series Only

- 4" backsplash has two knockouts with covers for electrical outlets (outlets provided by others)
- Four epoxy coated wire shelves standard per unit

## Product Information

- Patented air screen ensures product stays cold without drying it out
- All 4400 Series units are 100% front breathing, which allows the unit to be pushed against a wall or built into a cabinet or an existing line up
- Durable, rugged stainless steel sides, top and front
- Features Delfield's exclusive Delrite ABS interior (on sides). ABS is extremely durable - it won't dent, chip or corrode and is backed by a limited lifetime warranty
- Delfield supplies 1/6 size pans and adapter bars for top opening
- Salad top refrigerators are standard with 10" wide, dishwasher safe polyethylene cutting board with antimicrobial treatment
- "D" prefix models feature Delfield's new drawer system. Drawers are backed by a 10-year warranty on the track assembly
- Environmentally friendly R404A refrigerant
- High density foamed in place polyurethane keeps energy costs low
- Black recessed quick grip handle
- Standard on 5" casters for easy cleaning and installation
- 6' cord and plug supplied
- One epoxy coated wire shelf standard, installed per door section
- "ST" prefix models have a 4" stainless steel backsplash
- ACT solid state electronic control
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

# 4400NM - MEGA TOP PREP TABLES

## Product Information

- Patented air screen design ensures product stays cold without drying it out
- All 4400 Series units are 100% front breathing, which allows the unit to be pushed against a wall or built into a cabinet or an existing line up
- Durable, rugged stainless steel sides, top and front
- Features Delfield's exclusive Delrite ABS interior (on sides). ABS is extremely durable - it won't dent, chip or corrode and is backed by a limited lifetime warranty
- Delfield supplies 1/6 size plastic pans and adapter bars for top opening
- Heavy duty self-closing hinges
- Mega top refrigerators are standard with 8" wide, dishwasher safe polyethylene cutting board with antimicrobial treatment
- "D" prefix models feature Delfield's exclusive new drawer system. Drawers are backed by a 10-year warranty on the track assembly (Great for fast replenishment!)
- Environmentally friendly R404A refrigerant
- High density foamed in place polyurethane keeps energy costs low
- Black recessed quick grip handle
- Standard on 5" casters for easy cleaning and installation
- 60-cycle single phase electrical system
- 6' cord and plug supplied
- One epoxy coated wire shelf standard, installed per door section
- "ST" prefix models have a 4" stainless steel backsplash
- ACT solid state electronic control
- One year parts and 90 day labor standard warranty. Additional warranties available.

#### Product Information

##### PTBM, PDL & PTL SERIES ONLY

- Top and sides are constructed of stainless steel
- Back of unit is galvanized
- Pans and adapter bars by others
- High density environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane foam throughout unit
- Stainless steel removable hinged covers
- Unit on/off switch is located behind the louver
- Front louvered panel has 1.50" hole for rail on/off switch access
- Protective rubber bumpers are affixed to the back of the unit
- 8' long electrical cord
- Environmentally friendly HFC-404A refrigerant
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

##### PTBM SERIES ONLY

- Mechanically cooled
- Pans are recessed 2"
- NSF7 certified
- Die-stamped openings to accommodate 12" x 20" hotel pans or fractional pans

##### PTL SERIES ONLY

- LiquiTec® cooled flush mount rail with NSF7 certified performance
- Pans are flush mounted
- Standard Polyethylene cutting board

##### CTP-NB SERIES ONLY

- HFC-134A refrigerant is used
- 18-gauge exterior
- Mechanically cooled
- Pans are recessed 3"
- NSF7 certified
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

##### PDL ONLY:

- 4.12" casters
- 34" standard work height
- Stainless steel finished ends
- LiquiTec® cooled flush mount rail with NSF7 certified performance
- Pans are flush mounted
- 17" wide polyethylene cutting board
- Five year compressor warranty
- One year parts and labor standard warranty. Additional warranties available, see below

Freezer Base Equipment Stands

**F28/F29 Series** - Low Profile  
Refrigerated Base Equipment Stands

# F28/F29 SERIES - REFRIGERATOR BASE EQUIPMENT STANDS

## F26/F27 SERIES - FREEZER BASE EQUIPMENT STANDS

### Product Information

- Top is 18-gauge stainless steel, with integral full perimeter marine edge
- Standard stainless steel ends
- High density polyurethane foam insulation throughout unit
- Refrigerated/freezer base fronts are made of .095" thick ABS plastic backed by rigid polyurethane water blown injection molded frames (NO WOOD)
- Exterior drawer fronts are stainless steel with an Delrite ABS plastic liner
- Snap-in dart style vinyl magnetic gasket
- Drawer handles are recessed black plastic held in with a positive lock system
- 14-gauge leg rails run the entire length of the unit
- Self-contained refrigerators come standard on 300 pound casters with optional 6.12" adjustable full stainless steel legs and bullet feet
- Remote units are standard on legs
- 8' cord and plug supplied
- Base interior cabinet is cooled with mullion style coated blower coil(s) mounted between each door/drawer section for even air and temperature control
- Blower coil enclose refrigeration lines, evaporator coil, expansion valve and fans
- Interior refrigerated base cabinet section to maintain 36° to 40° meeting NSF7 requirements
- Digital thermometer
- Electric condensate evaporators are standard
- Optional 220V-50 cycle available
- Wall-mounted bracket to prevent tipping
- Full Extension Plus Drawer system is a complete drawer system. Drawer system is sized to hold 12" x 20" x 4" deep hotel pans (by others). The drawer system is all stainless steel construction for maximum durability
- F26/2700 base cabinet will maintain 0° to -5° temperatures at 100° ambient room temperature meeting NSF7 requirements
- When ordering, specify make, model and depth of cooking equipment sitting on the equipment stand
- Height of surface for setting equipment is 25.50"
- Self-contained freezers are standard with a defrost timer
- Environmentally friendly HFC-404A refrigerant
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

**F2980**  
Shown with optional legs

**FULL EXTENSION PLUS DRAWER SYSTEM!**

### Product Information

#### All Units

- One year parts and labor warranty

#### EHEI only

- Stainless steel top and sides
- Individual wells with infinite controls
- 8" polyethylene cutting board
- Drains, manifold and common gate valve
- Stainless steel plate shelf
- Stainless steel bottom shelf with 3" riser at rear
- Models on casters (C) standard with cord and plug
- Models on legs (L) must be hard wired in field

#### Sink Units only

- Stainless steel top and sides
- Stainless steel bottom shelf with 3" riser at the rear
- Standard on legs
- 10"x13" x6.5" sink with deck mount faucet
- 3-sided removable sink riser standard

#### ECOS only

- Stainless steel top and sides
- Stainless steel bottom and center shelf with 3" riser at the rear
- Standard on 6" legs

## Product Information

### All Units

- One year parts and labor warranty

### Soup Well Units only

- Stainless steel top and sides
- Individual wells with infinite controls
- Drain and gate valve standard
- Stainless steel bottom shelf with 3" riser at the rear
- Standard on flanged feet
- Standard with removable adapter plate to accommodate (2) 8.5" diameter pans

### Ice Cooled Pan Units only

- Stainless steel top and sides
- Stainless steel bottom shelf with 3" riser at rear
- 1" drain is standard
- Removable stainless steel perforated bottom standard
- Standard on flanged feet
- 2" recessed integral pan rest

- Single well ice pan to accommodate (1) 12"x20" pan

### ESOS only

- Stainless steel top and sides
- Stainless steel bottom and center shelf with 3" riser at the rear
- Standard on flanged feet

### EODC only

#### Base:

- Stainless steel top and sides
- Stainless steel bottom and center shelf with 3" riser at the rear
- Standard on flanged feet

#### Overshelf:

- Double tier cantilevered overshelf welded in place
- Stainless steel shelves and legs
- Integral brace raceway under each shelf for field added components

# ASM SERIES - DROP-IN REFRIGERATED AIR SCREEN MERCHANDISER

**ASM-48**

shown with optional Shelley base

## Product Information

- All glass display area and top slim line fluorescent lighting showcases product
- Bottom shelf is a recessed pan, perfect for bottles or taller items
- Three 1" adjustable glass shelves with fluorescent lights standard
- Slide out condensing unit allows for easy serviceability
- R404A refrigerant
- Shelves can be positioned three ways: completely flat, slanted and full tilt
- Drain requires hard plumbing (unless condensate evaporator option is selected)
- Sliding rear doors make replenishment and loading easy
- Meets NSF7 Type 2 requirements which maintains 33°F to 41°F temperature in 80°F environment with 55% relative humidity
- Standard with two louvers, shipped loose, for proper airflow in base
- One year parts and labor standard warranty

# F5 SERIES - DROP IN REFRIGERATED DISPLAY CASES

## Product Information

- Display exterior sides are made of 18-gauge stainless steel
- ABS plastic interior sides with molded shelf supports
- (4) adjustable epoxy coated wire shelves
- On/off switch for the display section light(s)
- Top mount coil with multiple fans circulating the air throughout the cabinet
- Display section runs off a thermostat
- ABS plastic drip pan is placed below the coil with a clear drain hose for running the condensation to the lower base mechanical section
- Sliding and removable self-closing .50" thick argon filled, low-E, warm edge insert, thermopane glass doors with left and right vertical gasket
- High density polyurethane foam throughout unit
- Optional 220V-50 cycle
- "M" units have a single service display section with mirrored back. "S" units have a single service display section with a see-through back. "P" units have Pass-through display section with glass doors on both sides
- Environmentally friendly HFC-404A refrigerant
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

# F15 SERIES - REFRIGERATED DISPLAY CASE WITH STORAGE

**F15MC48N**  
Shown with optional  
finished ends

## Product Information

### DISPLAY CASE

- Display exterior sides are made of 18-gauge stainless steel
- ABS plastic interior sides with molded shelf supports
- (4) adjustable epoxy coated wire shelves
- On/off switch for the display section light(s)
- Top mount coil with multiple fans circulating the air throughout the cabinet
- Display section run off a thermostat
- ABS plastic drip pan is placed below the coil with a clear drain hose for running the condensation to the lower base mechanical section
- Sliding and removable self-closing .50" thick argon filled, low-E, warm edge insert, thermopane glass doors with left and right vertical gasket

### BASE

- Standard heavy duty units have unfinished base ends, for finished end options, see page 56
- Base top is constructed of 16-gauge stainless steel
- High density polyurethane foam throughout unit
- Refrigerated base fronts are made of .095" thick ABS plastic backed by rigid polyurethane water blown injection molded frames (NOWOOD)
- Epoxy coated shelf for each door
- Exterior door fronts are stainless steel with ABS plastic liner
- Snap-in dart style vinyl magnetic gasket

- Door handles are recessed black plastic and held in with a positive lock system
- 14-gauge leg rails that run the entire length of the unit
- 6.12" adjustable full stainless steel legs and bullet feet
- Base interior cabinet is cooled with mullion style coated blower coil(s) mounted between each door/drawer section for even air and temperature control
- Blower coil encloses refrigeration lines, evaporator coil, expansion valve, thermostat and fans
- Interior refrigerated base cabinet and display section to maintain 36° to 41° meeting NSF requirements
- Optional 220V-50 cycle
- "M" units have a single service display section with mirrored back. "S" units have a single service display section with a see-through back. "P" units have Pass-through display section with glass doors on both sides
- Environmentally friendly HFC-404A refrigerant
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

## DC-H: CONCEPTS HEATED SERVING COUNTERS

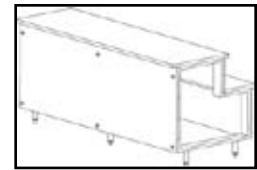

### Product Information

#### DCBU UNITS ONLY

- Heavy duty stainless steel top
- Reinforced stainless steel front and rear removable panels
- Heavy duty base support structure
- Standard on 6" legs
- 36" work height
- Must be hard wired in field
- 11.87" x 19.87" single hot food wells are manifolded together to one main gate valve
- Wet and dry operation
- Individual infinite temperature controls
- One year parts and labor standard warranty

#### DC-H UNITS ONLY

- Flush mount die stamped stainless steel heated food well
- 1/2" stainless steel drains
- Heavy duty stainless steel top
- Reinforced stainless steel front and rear with removable panels
- Heavy duty base support structure
- Standard on 6" legs

**DCBU-T60**

**DC-H4**

# DCRU-IC: CONCEPTS RADIAL ICE COOLED SERVING COUNTERS

## DCRU-MC: CONCEPTS RADIAL MECHANICALLY COOLED SERVING COUNTERS

### Product Information

#### DCRU-IC UNITS ONLY

- Stainless steel pan clip
- Removable perforated false bottom

#### DCRU-MC UNITS ONLY

- Must be fixed hard wired
- Environmentally friendly HFC-134A refrigerant
- Thermostat for temperature control

- High density foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane keeps energy costs low
- One year parts and labor standard warranty

#### All Units

- NSF-7 certified performance
- Heavy duty stainless steel top
- Reinforced stainless steel front and rear removable panels
- Heavy duty base support structure
- Standard on 6" legs
- Stainless steel pan clip
- 1" drain

# DC-TM: CONCEPTS TOWER END SERVING COUNTERS DCDM: CONCEPTS DISPLAY MERCHANDISER COUNTERS DCHS: CONCEPTS HANDSINK SERVING COUNTERS

## Product Information

### DC-TM

- Heavy duty stainless steel top
- Reinforced stainless steel front and rear removable panels
- Heavy duty base support structure
- Standard on 6" flanged feet, unit must be bolted to the floor
- 36" work height
- Laminated upper
- Removable interior stainless steel panels
- Standard with 5-20 GFCI outlet

### DCDM

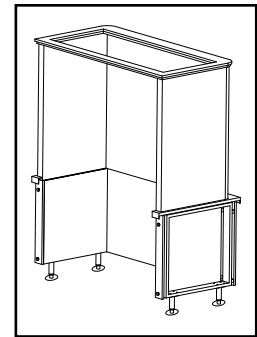

- Laminated ends, front, back
- Two removable laminated shelves
- Laminated shelves are adjustable and able to be slanted or flat
- Black poly shelf supports

### DCHS

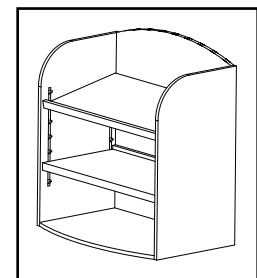

- Heavy duty stainless steel top
- Reinforced stainless steel front and rear removable panels
- Heavy duty base support structure
- Standard on 6" legs
- 36" work height
- Three sided removable stainless steel riser
- Deck mount faucet
- Finished stainless steel panels
- Soap dispenser
- On board water pump
- On board 2 1/2 gallon water heater
- (2) 5 gallon fresh water containers
- (2) 7 1/2 gallon waste water containers
- Cord and 5-15P plug
- 9" x 14" x 5" sink

## Product Information

### N8000-R UNITS ONLY

- NSF certified
- A stainless steel holding clip adjusts for pans
- Push-in perimeter gasket
- 1" drain standard
- High density foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane keeps energy costs low
- Removable perforated, false bottom
- One year parts and labor standard warranty

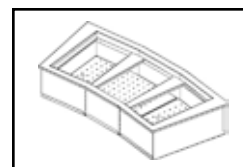

### N8100-BR UNITS ONLY

- NSF-7 certified performance
- A stainless steel holding clip adjusts for pans
- High density foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane keeps energy costs low
- Push-in perimeter gasket
- Stainless steel louver provided
- Environmentally friendly HFC-134A refrigerant

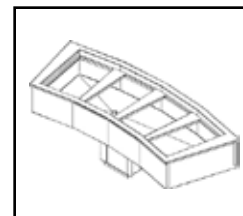

- 1" drain standard
- Thermostat for temperature control
- One year parts and labor standard warranty

### N8700-R UNITS ONLY

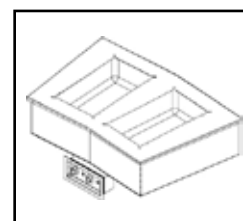

- Top is constructed of 18-gauge stainless steel
- Flush mounted die stamped drawn 12"x20" individual 20-gauge wells
- Wells depressed slightly into the top to hold condensation
- Standard 1/2" stainless steel drain(s)
- Non-marring press fit top gasket
- Must be hard wired in the field
- Wet and dry operation
- 11.87"x19.87" single hot food wells are manifolded together standard to one main gate valve
- Unit shall be insulated on all sides with 1" of fiberglass and bottom to have 2" of fiberfrax blanket insulation
- Individual infinite temperature controls standard wired to one main control panel with 4' of conduit and wire. Field install control panel at location
- Galvanized exterior body
- One year parts and labor standard warranty

# SH SERIES - MOBILE HEATED SERVING COUNTERS

## Product Information

- 14-gauge stainless steel top
- 18-gauge stainless steel exterior body
- 14-gauge galvanized bottom
- SH units have heated under storage compartment, provided with removable pan slides. SH-NU units have enclosed bases with no under storage
- A maximum 10' long cord and plug are supplied standard
- Electrical connections are 60 hertz, single phase. Three-phase design is available for an additional charge. Electrical accessories may change listed amperage and plug
- Top has two to six electrically heated, recessed die stamped stainless steel hot food warmers. Each warmer accommodates one 12" x 20" x 6" pan
- All exterior panels reinforced with overlapping corners, welded in place
- All body cutouts reinforced with 14-gauge channel supports
- Choose from an almost unlimited selection of laminate colors and textures to add color to any room
- All units are standard on 5" diameter polyurethane swivel casters for easy cleaning
- Easy to use stainless steel interlock system is standard on base and tray slides
- Easily modified with a complete array of standard accessories
- Counter heights available from 28" to 36" in 2" increments
- Add eye catching decal packages or bright canopies to create a distinctive look!
- Features new easy access panel for quick replacement of heating element.
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

	B. Double (per foot; 3' minimum) -----	<b>\$2,724</b>
<b>SG23</b>	<b>Toe Plates</b> Stainless steel (3' minimum) -----	<i>Per linear foot or fraction</i> <b>\$118</b>
<b>SG24</b>	<b>Tray Slides</b> 12" wide laminated fold-down style (per foot; add to tray slide price)-----	<b>\$408</b>
<b>SG25</b>	<b>Canopy and accessories</b>	
	A. Dome style -----	<i>Per inch</i> <b>\$57</b>
	B. Peak style -----	<i>Per inch</i> <b>\$83</b>
	C. Bus style -----	<i>Per inch</i> <b>\$43</b>
	D. Stationary frame-----	<b>\$1,456</b>
	E. Adjustable (tube in tube) frame-----	<b>\$2,733</b>
	F. 3" letters -----	<i>Each</i> <b>\$34</b>
	G. 2" or 3" stripe on canopy -----	<i>Per inch</i> <b>\$34</b>
<b>SG26</b>	<b>Bus theme</b> , includes, wheels, lights, windshield wipers, striping, license plate, fenders and doors only (does not include canopy, trim strips, lettering or over structure).	
	A. Single side only -----	<b>\$5,692</b>
	B. Dual sided bus -----	<b>\$7,417</b>
<b>SG27</b>	<b>Boat theme</b> , includes smoke stack with smoke, bow piece, flag, anchor, bell, and name plate (does not include waves, trim stripes or portholes).	
	A. Basic package single/dual -----	<b>\$7,541</b>
	B. Portholes-----	<i>Each</i> <b>\$189</b>
	C. Wave kick plates -----	<i>Per inch</i> <b>\$33</b>
<b>SG28</b>	<b>Train/Circus Train theme</b> , includes smoke stack, engine wheels with piston, cow catcher, cab over shelf, bell, and headlight (does not include wheels for following cars, circus animals, canopy, lettering).	
	A. Single side only -----	<b>\$10,263</b>
	B. Dual side train engine-----	<b>\$12,030</b>
	C. Circus animals-----	<i>Each</i> <b>\$593</b>
	D. Balloons, set of three in cluster -----	<b>\$206</b>
	E. Set of two wheels per side for following cars-----	<b>\$279</b>

# SHELLEYSSTEEL/SHELLEYGLAS EQUIPMENT ACCESSORIES

## Special Modifications (available on all equipment except where noted)

- SG29 Rocket theme**, includes nose cone, graphics, and tail wing (does not include trim strips).
- A. Single side only ----- **\$7,676**
  - B. Dual sided rocket ----- **\$9,314**

- SG30 Standoff Decor Panel**, 18"x18" Shelleyglas/Shelleysteel ----- **Consult Factory**

- SG31 Standoff Decor Panel**, Flexible size Shelleyglas/Shelleysteel/Concepts ----- **Consult Factory**

## TE

**Top extensions** (added to base as flat top area)

TE option should only be used for standard length units. Please contact the factory for custom length pricing.

- TE8.** 8" extension ----- **\$295**
- TE10.** 10" extension ----- **\$510**
- TE14.** 14" extension ----- **\$782**
- TE22.** 22" extension ----- **\$1,077**
- TE24.** 24" extension ----- **\$1,387**
- TE32.** 32" extension ----- **\$1,985**
- TE36.** 36" extension ----- **\$1,985**
- TE38.** 38" extension ----- **\$2,118**

## Spacer Options

The spacer option (wainscot) includes top, interlocks and legs.

Please specify fiberglass, stainless steel or laminate when ordering.

- KSPC.** Fiberglass spacer ----- per linear inch **\$39**
- SSPC.** Stainless steel spacer ----- per linear inch **\$32**
- LSPC.** Laminate spacer ----- per linear inch **\$35**

## Power Pole Options

**PP21-30.** 120/208 volt, 3-phase, 30 amp pole ----- per pole **\$534**

**PP14-50.** Locking 120/208 volt, single-phase, 50 amp pole ----- per pole **\$1,052**

# SPH SERIES - MOBILE HEATED SPEED LINE MODULES

SPH-50

## Product Information

- 14-gauge stainless steel top standard
- 9' long cord and plug are supplied standard
- 18-gauge stainless steel exterior standard
- Electrical: 120 volt, 60 cycle, single phase
- Removable sliding lids (two per unit) standard
- Standard on 5" diameter polyurethane swivel casters
- Stainless steel fully retractable interlock provided as standard
- Basket rack system is standard
- A wide selection of laminate colors available at no additional charge
- Laminate selection has 18-gauge galvanized base, 16-gauge coved corner supports to protect laminate
- Stay cool surface: Top is designed to stay below 90°, making it safe to touch
- Fin style element maintains even heating temperatures throughout the interior of the cabinet
- Meets NSF2, NSF4, UL and CEC standards
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

# SPRF SERIES - MOBILE REFRIGERATOR/FREEZER SPEED LINE COMBINATION MODULES

## Product Information

**SPRF-68**

- 14-gauge stainless steel top standard
- Two separate systems, one section refrigerator and one section freezer
- 9' long cord and plug are supplied standard
- 18-gauge stainless steel exterior standard
- Electrical: 120 volt, 60 cycle, single phase
- R134A refrigerant-refrigerator, R404A-freezer
- Removable sliding lids (two per unit) standard
- Standard on 5" diameter polyurethane swivel casters
- Stainless steel fully retractable interlock provided as standard
- Basket rack system is standard
- A wide selection of laminate colors available at no additional charge
- Laminate selection has 18-gauge galvanized base, 16-gauge coved corner supports to protect laminate
- Meets NSF2, NSF7, UL and CEC standards
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

# SPCS SERIES - MOBILE CASHIER SPEED LINE MODULES

**SPCS-30**

## Product Information

- 14-gauge stainless steel top standard
- 18-gauge stainless steel exterior standard
- Full NSF and UL certification
- A wide selection of laminate colors available at no additional charge
- Standard on 5" diameter polyurethane swivel casters
- Stainless steel fully retractable interlock provided as standard
- A 3" grommet hole is located at the rear of the top to allow cord access for cash register
- Stainless steel locking cash drawer standard
- Stainless steel under shelf can serve as foot rest or storage
- Add eye catching decal packages or bright canopies to create a distinctive look
- Laminate selection has 18-gauge galvanized base, 16-gauge coved corner supports to protect laminate
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

## Product Information

### N SERIES ONLY

- Six anodized aluminum divider trays per opening except opening over compressor, (2) supplied over compressor
- Refrigeration system shall be HFC-134A refrigerant
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

### N6/N10/N14 SERIES ONLY

- Cabinet top and corners to be 16-gauge stainless steel
- Cabinet sides to be 22-gauge stainless steel
- Interior liner to be water tight 22-gauge stainless steel
- 1" IPS drain
- Units insulated with foamed in place polyurethane
- Units to have sliding stainless steel lids with recessed handle
- Self-leveling mechanisms shall be adjustable by adding and removing stainless steel extension springs located inside the elevator housing
- Dispenser platform carrier shall be 18-gauge stainless steel and removable for cleaning
- 6" adjustable stainless steel legs
- Refrigeration system shall be HFC-134A refrigerant
- Expansion valve and pressure control

- Cabinet temperatures maintain 36°F to 40°F (2°C to 4°C)
- 9' cord and plug
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

### NDF SERIES ONLY

- Cabinet exterior to be 20-gauge stainless steel
- Cabinet sides to be 18-gauge stainless steel
- Interior liner to be water-tight 22-gauge stainless steel
- 1" IPS drain
- Units insulated with foamed in place polyurethane
- Two lids standard, one lift up and one fold down with door lock
- (4) 4.00" diameter polyolefin swivel casters (all locking)
- Non-marring gray corner bumpers
- Digital solar thermometer
- Refrigeration system shall be HFC-134A refrigerant
- Expansion valve and pressure control
- Cabinet temperatures maintain 36°F to 40°F (2°C to 4°C)
- 9' cord and plug
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

# NLFAC SERIES - MILK OR BEVERAGE DISPENSER

## Product Information

- Cabinet to be 18-gauge stainless steel
- Cabinet bottom to be 14-gauge stainless steel
- Interior liner to be water-tight 22-gauge stainless steel
- 1" diameter drain
- Units insulated with foamed in place polyurethane
- (2) Hinged lids with locks, molded of black ABS plastic
- 16-gauge dividers self locate milk crates
- Patented "air curtain" design
- (2) Evaporator coils
- Refrigeration system to be HFC-134A
- Expansion valve, thermostat and defrost timer standard
- Refrigerated temperatures maintain 36°F to 40°F (2°C to 4°C)
- Product will maintain 40°F (4°C) for 2 hours with lids open
- (4) 5.00" diameter polyolefin swivel casters (all locking)
- 8' cord and plug supplied
- One year parts and 90 days labor warranty. Additional warranties available

## SCFM SERIES - SHELLEYSSTEEL MILK AND ICE CREAM CABINETS

**KCM-50**

Shown with the following option:  
C. tubular fold down tray slide

**KCFM-50**

**SCM-50**

### Product Information

- All corners and center sides reinforced with galvanized bracing
  - Full NSF and UL Certification
  - 14-gauge tops
  - All units are standard on 5" diameter swivel casters for easy cleaning and mobility
  - Easy to use interlock system is standard on base and tray slides
  - Enclosed bases for vermin control
  - A maximum 10' long cord and plug are supplied standard
  - Top has one; two, three or four die stamped openings and is provided with hinged stainless steel removable lids
  - Watertight inner liner has radius corners for easy cleaning
  - Equipped with a drain plumbed to a drain valve
  - Refrigerated compartment is equipped with automatic self-leveling, field adjustable elevators. Divider trays are supplied
  - Milk capacities are based on half pint, 2.75" x 2.75" gable top cartons
  - 60 hertz, single phase electrical standard
  - All body cutouts reinforced with 14-gauge channel supports
  - Easy to use interlock system is standard on base and tray slides
  - Easily modified with a complete array of standard accessories
  - One year parts and 90 day labor standard warranty. Additional warranties available, see below
- KCM / KCFM SERIES ONLY**
- HFC-13A refrigerant is standard
  - One piece, molded fiberglass pylon (base), fully rounded corners
  - Permanent color
  - Fire Code rating on fiberglass, laminate, canopy materials
  - Caster mounting plates laminated into base
  - Add eye catching decal packages to create a distinctive look!
- SCM / SCFM SERIES ONLY**
- Milk capacities are based on half pint, 2.75" x 2.75" gable top cartons
  - HFC-134A refrigerant is standard
  - 18-gauge stainless steel exterior body
  - 14-gauge galvanized bottom
  - Top has one; two, three or four die stamped openings and is provided with hinged stainless steel removable lids

# SCF AND NSCF - MILK AND ICE CREAM DISPENSERS

## Product Information

- Cabinet top and corners to be 16-gauge stainless steel
- Cabinet sides to be 22-gauge stainless steel
- 1.25" IPS drain
- Units insulated with foamed in place high density polyurethane
- Insulated folding lid, stainless steel and high impact plastic
- Self-leveling mechanisms shall be adjustable by adding and removing stainless steel extension springs located inside the elevator housing
- Dispenser platform carrier shall be 18-gauge stainless steel and removable for cleaning
- (6) Anodized aluminum divider trays per opening (no divider trays supplied in opening over compressor)
- 6" adjustable stainless steel legs
- Environmentally friendly HFC-404A refrigerant
- 9' cord and plug supplied
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

### SCF SERIES ONLY

- Interior liner to be watertight 22-gauge stainless steel
- Expansion valve
- Cabinet shall maintain 0°F to 5°F (-18°C to -15°C) with lids closed
- Pressure control located near the condensing unit

### NSCF SERIES ONLY

- (2) Interior liners to be water tight 22-gauge stainless steel- (1) freezer and (1) refrigerator
- (2) expansion valves, EPR valve (refrigerated section) and pressure control (freezer)
- Refrigerated temperatures maintain 36°F to 40°F (2°C to 4°C)
- Freezer temperatures maintain 0°F to 5°F (-18°C to -15°C)

**SCF-32**  
Shown with optional corner bumpers & casters

### Product Information

#### N225-N227 SERIES ONLY

- 18-gauge stainless steel top construction
- 26.81" overall height
- Die stamped top opening with raised edge
- High-density polyurethane foam throughout unit
- Freezer tank is constructed of 2BF with large cleanout radii
- Mechanically cooled 0° to 5° tank storage temperatures meeting NSF and UL requirements
- Folding removable cover with black rubber external handle for easy grip
- 9' cord and plug
- Durable 16-gauge compressor cage
- Environmentally friendly HFC-404A refrigerant
- Optional 220v-50 cycle
- Remote units available
- Non-marring press fit gasket
- Stainless steel louver sent loose for field installation
- Suitable for ice cream storage.

#### 240 SERIES ONLY

- 20-gauge stainless steel top and body
- One piece stainless lift off cover with handle
- Stainless steel interior liner with coved corners
- 1" diameter drain plumbed out the bottom
- High-density polyurethane foam throughout unit

#### 203/305 SERIES ONLY

- 20-gauge stainless steel top with raised die stamped opening
- Galvanized exterior body
- One piece stainless lift off cover with handle
- 1" diameter drain plumbed out the bottom
- High-density polyurethane foam throughout unit
- 305: ABS plastic interior line with coved corners
- 203: stainless steel interior liner with coved corners

# N8000 SERIES - ICE COOLED COLD PANS N8100B SERIES - MECHANICALLY COOLED COLD PANS N8000N SERIES - NARROW ICE COOLED COLD PANS N8100N SERIES - NARROW MECHANICALLY COOLED COLD PANS

## Product Information

### N8000 SERIES ONLY

- 20-gauge stainless steel top construction
- 2 BF stainless steel interior liner
- Sectional removable perforated bottoms
- Adapter bars are provided standard for 12" x 20" openings
- Standard 1" plastic drain
- High density polyurethane foam insulation throughout unit
- Galvanized exterior body
- Custom sizes available
- Non-marring press fit top gasket is supplied standard
- NSF-2 certified
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

- Adapter bars are provided standard for 12" x 20" openings
- Standard 1" plastic drain
- High density polyurethane foam insulation throughout unit
- Galvanized exterior body
- Non-marring press fit top gasket is supplied standard
- NSF-7 certified
- Condensing unit is suspended below on a 16-gauge galvanized frame
- HFC-134A refrigerant
- 8' cord is standard
- Stainless steel louver is provided for field installation
- Custom sizes available
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

# 8100-EF SERIES - LIQUITEC® REFRIGERATED COLD PANS N8100-FA SERIES - FORCED AIR COLD PANS

**8145-EF**

**N8131-FA**

## Product Information

### 8100-EF SERIES ONLY

- 18-gauge stainless steel top construction
- 2BF stainless steel liner wrapped and spot clipped with refrigeration lines; thermal transfer compound is applied for superior cooling
- Mechanically cooled system
- Flush mounted die stamped drawn 12" x 20" individual 20-gauge wells
- Wells to be depressed slightly into the top to hold condensation
- Standard 1/2" stainless steel drain
- High density polyurethane foam insulation throughout unit
- Galvanized exterior body
- Thermostatic temperature with OFF position and expansion valve standard
- Non-marring press fit top gasket is supplied standard
- NSF7 certified
- Condensing unit is suspended below on a 16-gauge galvanized frame
- Environmentally friendly HFC-404A refrigerant
- 8' cord is standard
- Stainless steel louver is provided standard for field installation
- "EFN" slimline models run 12" x 20" well left to right instead of front to back
- One year parts and 90 day labor standard warranty. Additional warranties available.

### N8100-FA SERIES ONLY

- 20-gauge stainless steel top construction
- 2BF stainless steel liner kinked to drain
- Stainless steel pan holds product flush with top
- Air curtain system with evaporator coil and fan package located below false bottom. Air movement over product maintains NSF7 requirements
- Standard 1" plastic drain
- High density polyurethane foam insulation throughout unit
- Galvanized exterior body
- On/off switch with pressure control, and expansion valve standard
- Non-marring press fit top gasket is supplied standard
- NSF7 certified
- Condensing unit is suspended below on a 16-gauge galvanized frame
- Environmentally friendly HFC-404A refrigerant
- 8' cord is standard
- Stainless steel louver is provided standard for field installation
- Air curtain assembly is removable without tools for easy cleaning

# N8200 SERIES - FROST TOPS

## N8200G SERIES - GRANITE COLD SLAB

### Product Information

#### N8200 SERIES ONLY

- 18-gauge stainless steel top construction
- Top has integral drain trough and 2.00" overhang around perimeter
- Top is elevated 1.68" above counter surface and angles approximately 45° into the trough
- The bottom interior of the top is serpentine wrapped, taped, then foamed with high density polyurethane foam insulation.
- Exterior body is galvanized steel
- Condensing unit is suspended below on a 16-gauge galvanized frame
- Environmentally friendly HFC-404A refrigerant
- 8' cord is standard
- Stainless steel louver is provided standard for field installation
- Custom sizes available
- Standard 1/2" stainless steel tubing drain
- Unit is equipped with an on/off switch
- Non-marring press fit top gasket is supplied standard
- NSF certified

#### N8200G SERIES ONLY

- 14-gauge stainless steel top with "Absolute Black" granite
- Thermal transfer compound installed between stainless steel and granite top
- Top has integral drain trough 1.5" deep around perimeter
- Top is elevated 1.25" above counter surface
- Unit foamed with high density polyurethane insulation
- Exterior body is galvanized steel
- Condensing unit is suspended below on a 16-gauge galvanized steel frame
- Environmentally friendly HFC-404A refrigerant
- 8' cord is standard
- Stainless steel louver is provided standard for field installation
- Standard 3/4" stainless steel drain
- Unit is equipped with an ON/OFF switch
- NSF certified

#### ALL UNITS

- One year parts and 90 day labor standard warranty. Additional warranties available.

# N8600 SERIES - COMBINATION HOT/COLD WELLS

## N8800 SERIES - SINGLE TANK HOT FOOD WELLS

**N8643**

**N8845**

### Product Information

#### N8600 SERIES ONLY

- Dual temp hot or cold operation
- 20-gauge stainless steel top construction
- Single "wet only" well with immersion heater(s) and 1" stainless steel drain
- Adapter bars standard to accommodate 12"x20" pans
- Remote control panel with 3-way Hot/Off/Cold power switch and thermostatic control for hot operation
- Thermostat for cold operation located by condensing unit
- Non-marring press fit top gasket is supplied standard
- High density polyurethane foam insulation throughout unit
- Stainless steel liner wrapped with spot clipped refrigeration lines; thermal transfer compound applied for superior cooling
- Galvanized exterior body
- Condensing unit suspended below on a 16-gauge galvanized frame

- HFC404A refrigeration system with thermostatic expansion valve
- Unit must be hard wired in field
- Stainless steel louver is provided standard for field installation

#### N8800 SERIES ONLY

- Adapter bars provided standard to accommodate 12" x 20" pans
- Single wet only well 8" deep made of 316 series stainless kinked to stainless 1" drain
- Single thermostatic temperature control wired to (1) main control panel with 2' of conduit and wire. Field install control panel at locations

#### ALL UNITS

- One year parts and 90 day labor standard warranty. Additional warranties available, see below

# N8700 SERIES - HEATED FOOD WELLS

## N8700N SERIES - INDIVIDUALLY HEATED NARROW FOOD WELLS

### Product Information

#### N8700ND SERIES ONLY

- Top is constructed of 18-gauge stainless steel
- Flush mounted die stamped drawn 12" x 20" individual 20-gauge wells
- Wells to be depressed slightly into the top to hold in condensation
- Standard 1/2" stainless steel drain(s)
- Non-marring press fit top gasket is supplied standard
- Must be hard wired in the field
- Wet and dry operation
- 11.87" x 19.87" single hot food wells are manifolded together standard to one main gate valve
- Unit shall be insulated on all sides with 1" of fiberglass and bottom to have 2" of fiberfrax blanket insulation
- Individual infinite temperature controls standard wired to one main control panel with 4' of conduit and wire. Field install control panel at location
- Galvanized exterior body

## Product Information

### N8000-R UNITS ONLY

- NSF certified
- A stainless steel holding clip adjusts for pans
- Push-in perimeter gasket
- 1" drain standard
- High density foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane Keeps energy costs low
- Removable perforated, false bottom
- One year parts and labor standard warranty

### N8100-BR UNITS ONLY

- NSF-7 certified performance
- A stainless steel holding clip adjusts for pans
- High density foamed in place environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane Keeps energy costs low
- Push-in perimeter gasket
- Stainless steel louver provided
- Environmentally friendly HFC-134A refrigerant

- 1" drain standard
- Thermostat for temperature control
- One year parts and labor standard warranty

### N8700-R UNITS ONLY

- Top is constructed of 18-gauge stainless steel
- Flush mounted die stamped drawn 12"x20" individual 20-gauge wells
- Wells depressed slightly into the top to hold condensation
- Standard 1/2" stainless steel drain(s)
- Non-marring press fit top gasket
- Must be hard wired in the field
- Wet and dry operation
- 11.87"x19.87" single hot food wells are manifolded together standard to one main gate valve
- Unit shall be insulated on all sides with 1" of fiberglass and bottom to have 2" of fiberfrax blanket insulation
- Individual infinite temperature controls standard wired to one main control panel with 4' of conduit and wire. Field install control panel at location
- Galvanized exterior body
- One year parts and labor standard warranty

# DIS - DROP-IN DISH DISPENSERS

## Product Information

### DIS SERIES ONLY

- Top flange and bottom brace to be 18-gauge stainless steel
- Vertical side channels to be 22-gauge stainless steel
- Flange, channels and bottom to be integrally welded
- Spring supports to be 14-gauge stainless steel
- Carrier head made of welded rods with a removable 18-gauge top plate
- Self-leveling mechanism, field adjustable by adding or removing springs
- High impact plastic guide posts mounted to flange
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

### DIS-ET/QT SERIES ONLY

- 4' cord and plug
- Convection heating module and fan motor
- Air intake shall be filtered
- On/off switch and adjustable thermostat
- Outer 22-gauge stainless steel jacket
- QT- Shall have a stainless steel cover
- ET- Maintains temperatures between 120-140°F (49-60°C)
- QT- Maintains temperatures between 150-170°F (66-77°C)
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

# CD SERIES - CUP DISPENSERS SB SERIES - BREAD DISPENSERS ND SERIES - NAPKIN DISPENSERS

## Product Information

### CD SERIES ONLY

- Dispenser tube is constructed of stainless steel with an 18-gauge support flange
- Elevating mechanism consists of stainless steel spring and three equally spaced stainless steel friction strips fastened to a stainless steel collar
- Two compression springs are provided; one for paper cups, and one for foam cups
- Dispenser capacities will vary depending on the style of cup

### SB SERIES ONLY

- Support flange and dispenser tube to be 18-gauge stainless steel
- Cover to be 16-gauge stainless steel
- Bread elevating mechanism consists of a calibrated stainless steel spring, which supports the adjustable carrier
- Removable mechanism
- Raising or lowering a self-locking disc contained within the carrier head accomplishes stacking height adjustment

### ND SERIES ONLY

- Top flange to be 18-gauge stainless steel
- Dispenser bottom to be 22-gauge stainless steel
- Dispenser body shall have four 22-gauge vertical angle guides integrally welded to the top flange and bottom
- Carrier head to be 22-gauge stainless steel
- Two extension springs support the carrier head
- Napkin cover to be 20-gauge stainless steel and snaps onto flange
- All models hold up to 500 paper napkins at an 18.00" stack height, capacity will vary
- Special heights available

### ALL UNITS

- One year parts and 90 day labor standard warranty. Additional warranties available, see below

# MF/MFSC SERIES - BUILT IN MILK OR BEVERAGE DISPENSERS

**MFSC-57**  
supplied with a lid

## Product Information

- Exterior body to be 20-gauge galvanized steel
- Units insulated with foamed in place polyurethane
- 1" IPS drain
- Opening throat liner to be high impact plastic
- Exterior frame to be 14-gauge galvanized
- Self-leveling mechanisms shall be adjustable by adding and removing stainless steel extension springs located inside the elevator housing
- (6) Anodized aluminum divider trays per opening on all units but MFSC-2020
- Dispenser platform carrier shall be 18-gauge stainless steel and removable for cleaning
- Insulated folding lid, stainless steel and high impact plastic
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

### MF/MFSC SERIES ONLY

- Opening throat liner is high impact plastic
- (1) louver provided to be field installed

### MFSC SERIES ONLY

- Expansion valve
- Pressure control located near the condensing unit
- Cabinet shall maintain 36°F to 40°F (2°C to 4°C) with lids closed
- Refrigeration system shall be HFC-134A
- 9' cord and plug supplied

### MF SERIES ONLY

- An expansion valve and copper tubing connection to remote refrigeration system is provided
- Temperature and pressure control not provided

# CAB2 - MOBILE ENCLOSED TWO STACK DISH DISPENSERS

## Product Information

### Cabinet

- Cabinet top to be 16-gauge stainless steel, welded, polished and reinforced
- Outer body and corners to be 20-gauge stainless steel
- Non-marring gray corner bumpers
- (4) 4.00" diameter polyolefin swivel casters (all locking)

### Dispensers

- Top flange and bottom brace to be 18-gauge stainless steel
- Vertical side channels 22-gauge stainless steel
- Flange, channels and bottom to be integrally welded
- Spring supports to be 14-gauge stainless steel
- Carrier head made of welded rods with a removable 18-gauge top plate
- Self-leveling mechanism, field adjustable by adding or removing springs

- High impact plastic guide posts mounted to flange

### QT/ET

- 9' cord and plug supplied
- Convection heating module and fan motor per dispenser
- Outer 22-gauge stainless steel jacket around dispenser
- Air intake shall be filtered
- On/off switch on each dispenser
- Each dispenser to have an adjustable thermostat
- QT- each dispenser shall have a stainless steel cover
- ET- Maintains temperatures between 120-140°F (49-60°C)
- QT- Maintains temperatures between 150-170°F (66-77°C)
- One year parts and 90 day labor standard warranty. Additional warranties available, see below

MOBILE DISPENSING EQUIPMENT

# DOMESTIC U.S. TERMS AND CONDITIONS

- Prices.** Unless otherwise specifically agreed, all prices are for material packed for domestic shipment and for delivery F.O.B. point of manufacture. Acceptance of your order is based on present costs, and the prices set forth herein are subject to increase by Seller at any time prior to delivery in respect to all or any portion of the material on order to the extent necessary to cover Seller's increased costs applicable thereto.
- Delivery.** Shipping dates are approximate and based on prompt receipt of all necessary information. All risks of loss shall be on the Buyer from point of shipment. Buyer shall pay all transportation and delivery charges to final destination.
- Default.** If Buyer shall fail or refuse to accept delivery of the equipment or parts ordered hereunder or should default in the performance of any of the terms, covenants and conditions of this agreement, Seller may retain the cash deposited or paid to it and/or equipment accepted by it on account of the sale price and apply the same toward payment of its damages.
- Delays.** Seller shall not be liable for loss or damage due to delay in delivery, manufacture or installation resulting from any cause beyond Seller's reasonable control, including but not limited to, compliance with any regulation, orders or instructions of any federal, state or municipal government or any department or any agency thereof, acts of nature, acts or omissions of the Buyer, acts of civil or military authority, fires, strikes, factory shutdowns or alterations, embargoes, wars, riot, delays in transportation, or inability due to cause beyond the Seller's reasonable control to obtain necessary labor or materials from the Seller's usual sources; and any delays resulting from any such cause shall constitute cause for extending delivery dates and receipt of the goods shall constitute a waiver of all claims for damage. In no event shall Seller be liable for special or consequential damages.
- Payment Terms.** The terms of sale herein are subject to credit approval and Seller may at any time prior to delivery modify the terms of payment originally specified to require payment in advance. Lacking credit approval, sales will be made on a cash with order, *pro forma* invoice or cash on delivery basis. All printed prices are quoted F.O.B. Factory, subject to terms as printed and subject to change without notice.  
If the total selling price is not paid when due, buyer shall pay late charges equal to the highest lawful contract rate of interest not to exceed 1 1/2% per month computed from the due date on the unpaid balance of the total selling price.
- Specifications.** Quantities and sizes are subject to variation in accordance with Seller's standard practices, tolerances and the requirements of the job where the equipment covered by this order is to be installed.
- Installation.** If the order acknowledgment provides for installation, Seller's obligation to deliver the equipment and provide for its installation shall in no event commence until the premises are ready to receive the equipment, and such obligations shall be subject to all the other terms hereof. Costs and expenses to Seller or its contractor due to delays in installation caused by interference by other contractors working on the premises will be charged to Buyer. Installation costs stated in this order are estimated, cover only installation of the equipment specified herein, and do not cover any other costs, including, but not limited to, costs of electrical work, carpentry, plumbing, sweeping, mopping, dusting or general cleanup. Seller or its contractor shall not be responsible for removing or disposing of packing material, cartons, boxes or other containers housing the equipment.
- Taxes.** The amount of taxes stated on the order, if any, is approximate only. Buyer is liable for the full amount of all taxes applicable to or as a result of a transaction, exclusive of franchise taxes and taxes measured by the net income of Seller. Buyer shall pay the amount of all such taxes at any time requested by Seller as if originally added to the price. If Seller pays the taxes, Buyer shall reimburse Seller therefor.
- Insurance.** Buyer shall provide and maintain adequate insurance for the product delivered against loss or damages by fire or other causes during the time between delivery and final payment, in an amount fully protecting Seller, and loss or damage by fire or other causes within such period shall not relieve Buyer from its obligations under this contract. Buyer shall provide and maintain adequate liability and workmen's compensation insurance covering all workers who may assist in the erection of product delivered.
- Cancellation.** Buyer may cancel its order, reduce quantities, revise specifications or extend schedules only by mutual agreement as to reasonable and proper cancellation charges which shall take into account expenses already incurred and commitments made by Seller, and Buyer shall indemnify Seller against any loss.
- Standard One-Year Warranty.** The Delfield Company ("Delfield") warrants to the Original Purchaser of the Delfield product (herein called the "Unit") that such Unit, and all parts thereof, will be free from defects in material and workmanship under normal use and service for a period of one (1) year from the date of shipment of the Unit to the Original Purchaser or, if the Original Purchaser returns the warranty card completely filled out including the date of installation within thirty (30) days of receipt of the Unit, one (1) year from the date of installation. During this one year warranty period, Delfield will repair or replace any defective part or portion thereof returned to Delfield by the Original Purchaser which Delfield determines was defective due to faulty material or workmanship. The Original Purchaser will pay all labor, crating, freight and related costs incurred in the removal of the Unit or

defective component and shipment to Delfield, except that during a period of either ninety (90) days from the date of shipment of the Unit to the Original Purchaser or, if the Original Purchaser returns the warranty card completely filled out including the date of installation within thirty (30) days of receipt of the Unit, ninety (90) days from the date of installation Delfield will pay all related labor costs. Delfield will pay the return costs if the Unit or part thereof was defective.

The term "Original Purchaser" as used herein means that person, firm, association, or corporation for whom the Unit was originally installed.

This Warranty does not apply to any Unit or part thereof that has been subjected to misuse, neglect, alteration, or accident, such as accidental damage to the exterior finish; operated contrary to the recommendations specified by Delfield; or repaired or altered by anyone other than Delfield in any way so as to, in Delfield's sole judgment, affect its quality or efficiency. This Warranty does not apply to any Unit that has been moved from the location where it was originally installed. **This Warranty also does not cover the refrigerator drier or the light bulbs used in the Unit. The warranty is subject to the user's normal maintenance and care responsibility as set forth in the Service and Installation Manual, such as cleaning the condenser coil, and is in lieu of all other obligations of Delfield. Delfield neither assumes, nor authorizes any other person to assume for Delfield, any other liability in connection with Delfield's products.**

Removal or defacement of the original Serial Number or Model Number from any Unit shall be deemed to release Delfield from all obligations hereunder or any other obligations, express or implied.

Parts furnished by suppliers to Delfield are guaranteed by Delfield only to the extent of the original manufacturer's express warranty to Delfield. Failure of the Original Purchaser to receive such manufacturer's warranty shall in no way create any warranty, express or implied, or any other obligation or liability on Delfield's part in respect thereof.

If shipment of a replacement part is requested prior to the arrival in the Delfield factory of the part claimed to be defective, the Original Purchaser must accept delivery of the replacement part on a C.O.D. basis, with credit being issued after the part has been received and inspected at Delfield's plant and determined by Delfield to be within this Warranty.

Under no condition does this Warranty give the Original Purchaser the right to replace the defective Unit with a complete Unit of the same manufacturer or of another make. Unless authorized by Delfield in writing, this Warranty does not permit the replacement of any part, including the motor-compressor, to be made with the part of another make or manufacturer.

No claims can be made under this Warranty for spoilage of products for any reason, including system failure.

The installation contractor shall be responsible for building access, entrance and field conditions to insure sufficient clearance to allow any hood(s), vent(s) or Unit(s), if necessary, to be brought into the building. Delfield will not be responsible for structural changes or damages incurred during installation of the Unit or any exhaust system.

Delfield shall not be liable in any manner for any default or delay in performance hereunder caused by or resulting from any contingency beyond Delfield's control, including, but not limited to, war, governmental restrictions or restraints, strikes, lockouts, injunctions, fire, floods, acts of nature, short or reduced supply of raw materials, or discontinuance of the parts by the original part manufacturer.

**Except as provided in any Additional Four Year Protection Plan, if applicable, and the Service Labor Contract, if applicable, the foregoing is exclusive and in lieu of all other warranties, whether written or oral, express or implied. This Warranty supersedes and excludes any prior oral or written representations or warranties. Delfield expressly disclaims any implied warranties of merchantability, fitness for a particular purpose or compliance with any law, treaty, rule or regulation relating to the discharge of substances into the environment. The sole and exclusive remedies of any person relating to the Unit, and the full liability of Delfield for any breach of this warranty, will be as provided in this warranty.**

Other than this Delfield Standard One Year Limited Warranty, any applicable Delfield Additional Four Year Protection Plan or applicable Delfield Service Labor Contract, the Original Purchaser agrees and acknowledges that no other warranties are offered or provided in connection with or for the Unit or any part thereof.

**In no event will Delfield be liable for special, incidental or consequential damages, or for damages in the nature of penalties.**

- Applicable Law.** Variation of Terms. The rights and obligations of Seller and Buyer under an order shall be governed by the laws of the state where accepted by Seller. No waiver, modification, or addition to any of the terms of this order shall be binding on Seller unless made in writing by The Delfield Company. The provisions of an order are intended by Buyer and Seller as a final expression of their agreement and are intended also as a complete and exclusive statement of all terms applicable to Buyer's order.

**NOTE: Possession of this price list does not necessarily constitute an offer to sell by The Delfield Company.**

This Price Guide supersedes all other price lists. Although reasonable care has been taken to insure the accuracy of information in this Price Guide, Delfield cannot be held liable for any errors or omissions. Prices shown in this Price Guide are for standard Delfield models with standard electrical characteristics as described in sales and technical literature. All prices and specifications are subject to change without notice.

## Payment Terms

All shipments are F.O.B. point of manufacture. The terms of sale are subject to credit approval. These terms may be modified at any time prior to shipment. All shipments will be made on a *pro forma* invoice or C.O.D. basis unless otherwise approved.

If the total selling price is not paid when due, buyer shall pay late charges equal to the highest lawful contract rate of interest not to exceed 1 1/2% per month computed from the due date on the unpaid balance of the total selling price.

## Shipping Carrier

Delfield reserves the right to ship merchandise via any responsible carrier available at the time equipment is ready for shipment. When carrier or shipping routing is designated by dealer, Delfield will attempt to comply. Delfield cannot be held responsible for carrier rate differences; this is beyond our control. Rate differences are entirely between carrier and purchaser.

## Returned Goods

Permission must first be obtained from Delfield's home office before returning any merchandise. Returned merchandise is subject to a minimum 25% handling charge. All returned goods, cartons or crates must display our return authorization number. Any returned goods shipment lacking the return authorization number will be refused, with all additional freight costs to be borne by the returning party.

## Concealed Damages

All of our crating conforms to general motor carrier specifications. If the container shows rough handling or visible damage, in order to minimize liability, a full inspection is necessary upon arrival. A notation must be placed on the freight bill and signed by the truck driver. Appearance of damage will necessitate removing the crate in the presence of the driver. *Claims for damages must be filed at once by purchaser with the freight carrier.*

## Taxes

Prices shown do not include federal, state or other existing taxes. *Applicable taxes will be charged and added to the invoice unless an exemption certificate and tax identification number is received.*

## Storage Charges

Our shipping commitment is determined in accordance with delivery requirements and our best ability to fabricate. If, after the equipment has been fabricated, the customer requests delay in shipment and warehousing is required, the following schedule will apply: 1) Any equipment held for shipment at the purchaser's request for a period of 30 days beyond the delivery date specified shall become immediately payable. 2) If equipment is held beyond 60 days after the delivery date specified, storage charges will be added.

## Sanitation Codes

If you are placing equipment into an area which has certain sanitation requirements other than N.S.F. standards, Delfield must be advised of these specifications in detail before fabrication of the equipment, in order that we may quote additional costs, if any. Failure to notify Delfield before fabrication releases us from any obligation to modify our standards without additional charges.

## Orders and Drawings

To assure prompt and correct fabrication, Delfield must have all necessary information on the original order. Do not overlook finishes, accessories, and other options needed for a finished installation.

Please check the following items when ordering:

- Are all model numbers correct?
- Are stainless steel or laminate finished ends required?
- Is the laminate pattern and/or color number included?
- Are extra utility outlets needed?
- Are overshelves needed?
- Are end fillers and/or risers needed?
- Are you using natural, manufactured or bottled gas?
- Is a special refrigerant required?
- Are all specifications of equipment by others included?
- Are the electrical specifications correct?
- Are kick plates needed?
- Are special tops and backs needed for focal point operation?
- Is your shipping address complete, including zip code?
- Is special shipping required?
- Have you indicated the date required?

## Service Parts

All orders for service parts have a minimum charge. This policy may be modified by Delfield without notice. Prices shown for parts in this price list are for use when ordering an accessory with an original unit. Prices may vary when ordered separately from the Parts Department.

## Warranty

Warranty must be purchased at the time of sale only.
