| | ☐ Storage base shelf of aluminized or stainless steel in 17" (432mm), 24" (610mm) and 34" (864mm) cabinets |

Specifications:

Spreader plates provide additional work space between ranges or at the end of a battery. A 1-1/4" NPT manifold joins adjacent equipment for a continuous battery design, protected by a stainless steel manifold cover. Standard widths are 6" (152mm), 9" (229mm), 12" (610mm), 17" (432mm), 24" (610mm) and 34" (864mm), (Special sizes are available.) Spreader plate is available with front enclosure or mounted on cabinet base. Front enclosure is stainless steel and completely removable. Available in standard widths listed above, as well as special sizes. Cabinets have stainless steel doors with black powder coat epoxy sides. 12" (308mm), 17" (432mm) and 24" (610mm) wide have one door, and 34" (864mm) wide two doors.
